DeliverNow Restaurant Owner Interview Guide

Opening Context

- Tell me about your restaurant and how long you've been using delivery services.
- What percentage of your revenue comes from delivery versus dine-in?

Current Workflow Understanding

- Walk me through exactly what happens from the moment you receive a delivery order notification to when the food leaves your restaurant.
- How do you currently decide when to start preparing delivery orders?
- What information do you wish you had when a delivery order comes in that you don't have now?
- How do you communicate with your kitchen staff about delivery versus dine-in order priorities?

Pain Point Exploration

- Describe a recent situation where a delivery order didn't go as planned. What went wrong?
- What's the most frustrating part of managing delivery orders during your busiest hours?
- How do you handle situations when runners are delayed or don't show up?
- What concerns do you have about food quality during the delivery process?

Staff and Operations Impact

- How has adding delivery affected your kitchen staff's workflow and stress levels?
- What mistakes happen most frequently with delivery orders that don't happen with dine-in?

- How do you train staff to handle the differences between dine-in and delivery service?

Customer Experience Perspective

- What complaints do you receive about delivery that you don't get about dine-in service?
- How confident are you in the delivery experience your customers receive?

Closing and Ideation

- If you could change one thing about how delivery orders work, what would it be?
- What would make you feel more in control of the delivery experience?
