

DeliverNow Runner Interview Guide

Hi, thank you for taking the time to speak with me today. My name is Elijah Gathanga, we're working on improving the app and tools that DeliverNow runners like you use. I want to understand your experience so we can design something that works better for you. There are no right or wrong answers — I'm just here to learn about what works, what doesn't, and what could be better.

Is it okay if I take notes and/or record our conversation?
